### New Warehouse completed in Singapore

We hereby notify you that our subsidiary in Singapore, Sumitomo Warehouse (Singapore) Pte Ltd (hereinafter called “SWS”) completed the construction of its new warehouse.

SWS has been providing general logistics services to its customers based in two warehouses in Tuas area and an office in Singapore Changi Airport. In Singapore, handling volume of petrochemical products etc. is expected to grow further and the demand for temperature-controlled warehousing is also expanding due to the divergence of kinds of cargoes stimulated by the economic growth in the Southeast Asia.

SWS, considering such circumstances, started constructing the new warehouse with temperature controlling facilities (15-25°C/59.0-77.0°F) and now it was completed and the completion ceremony was held on 4<sup>th</sup> July. With this new warehouse, the total floor area of SWS owned warehouses reached approximately 41,000 square meters.

We promise to provide our current and possible customers with more fulfilling logistics services in the new warehouse in cooperation with our overseas group companies.

#### [Overview of New Warehouse]

- |                      |   |
